INFORMATION AND LIVING SYSTEMS: PHILOSOPHICAL AND SCIENTIFIC PERSPECTIVES (HARDBACK)

MIT Press Ltd, United States, 2011. Hardback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Information shapes biological organization in fundamental ways and at every organizational level. Because organisms use information--including DNA codes, gene expression, and chemical signaling--to construct, maintain, repair, and replicate themselves, it would seem only natural to use information-related ideas in our attempts to understand the general nature of living systems, the causality by which they operate, the difference between living and...
