Deity is impersonal - is comprehensive of and inseparable from the common material and intellectual components of the illimitable universe. 2. Infinite principles, as attributes of Deity, interpermeate and govern the finite in nature. 3. Under fixed and eternal laws, planet worlds are evolved from the solar orbs in space, and when completing their destined periods of existence are disintegrated and their substance matter reorganized for new worlds. 4. The human soul, as an eternal factor of the universe is elected to an endless chain of cycles, and during each of its cycles is afforded an opportunity for an earthly incarnation and for a period of Heavenly bliss. 5. The intellectual status of the soul upon entering the realm of spirit corresponds to that of its most exalted estate during the fleshly life. 6. The spirit has a progressive career from, bodily death till its arrival at the Pan Elysium, or terminal Heaven, whence it turns back to earth as an unconscious elemental and begins a new cycle of existences. 7. An inspirational power of sensing Infinite truth subsists in every human mind, which with culture and exercise will guide the intellectual destiny and ennoble and spiritualize the soul.
