The History Press, UK, 2000. Softcover. Book Condition: New. First Edition. Available Now. From the Back Cover: Withiam has been transformed over the last hundred years or so from a small market town with a mainly agricultural economy into a thriving centre and commuter town. This compilation charts these changes in the words of the townspeople themselves, recorded on tape and transcribed with a minimum of editorial involvement. : The whole of the town's life is recorded here, from contributors' earliest memories as children to their recollections of local characters who were already old a generation ago. Life in the home before modern conveniences is vividly explored, when the WC was at the bottom of the garden and the weekly wash took a whole day; there are children's memories of strict school teachers and playing for hours outdoors without the threat of traffic; and a multitude of small shops and businesses, now disappeared, are fondly recalled. How did people follow the latest fashions with the restrictions of clothing coupons? How did people get about without their car? What did people do to relax and enjoy themselves before television? All these questions and more are answered in these pages. : The contributors' memories are complemented by a wide variety of photographs and ephemera, mainly drawn from the family albums of the speakers themselves. This fascinating view of life in Withiam is sure to appeal to all who know the town, both long-established residents and relative newcomers. Size: 16.5 x 1.3 x 23.1 cm. 128 pages.
