Materials of Construction, Volume-II

By S.S. Bhavikatti

I.K. International Publishing House Pvt. Ltd., 2014. Paperback. Book Condition: New. 13.5 x 21.5cm. Materials of construction is an important subject for Civil Engineering students. This subject is taught to the students of Diploma in Civil Engineering in two courses. The author has already brought out a book prescribed in Materials of Construction-I and this is to cover the portion prescribed in materials of construction-II. The book is divided in six chapters, namely, (1) Cement, (2) Coarse and Fine Aggregates, (3) Mortar, (4) Cement Concrete, (5) Paints, Varnish and Distemper, (6) Miscellaneous and Modern Building Materials. At the end of each chapter, summary, a set of fill-in-the-blanks type and descriptive type questions with answers are given. To enhance the ability of the students to answer semester end examination five model question papers are also given.

Reviews

This book will not be straightforward to start on studying but really fun to read. it absolutely was writtern really flawlessly and helpful. You can expect to like just how the writer write this publication.

-- **Glenna Goldner**

The ideal ebook i actually study. It usually does not expense too much. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to should you request me).
