Language: English Brand New Book ***** Print on Demand *****.Excerpt from The Proteomorphic Theory and the New Medicine: An Introduction to Proteal Therapy This book is essentially a Monograph detailing the authors personal discoveries, original theories, and practical experiences in a new domain of therapeutics. It presents a series of new observations and certain novel theories of which it may unqualifiedly be affirmed that they are important if valid. As a matter of course, not all these series of new observations and theories are on the same plane, either of importance, of originality, or of verisimilitude. It will be well, therefore, to give a preliminary outline of both theories and practical discoveries, with suggestions as to their relative importance in the estimate of the author. Such an outline will be of value to the reader, both in his preliminary appraisal of the matter presented and in orienting his detailed study of the evidence as given in the text. First of all, as constituting the most general analysis, I would point out that three fundamental new discoveries are conceived to be represented. These are: (1) A physiological discovery,...
