By Linda Blocker

John Wiley and Sons Ltd, United Kingdom, 2008. Paperback. Book Condition: New. 3rd Revised ed.. 274 x 213 mm. Language: English . Brand New Book. Culinary Math: Math skills are an essential part of the day-to-day job functions of the professional chef. This book is designed to teach the culinary student or professional all the tools necessary to manage daily restaurant operations with maximum efficiency and profitability. Well-organized and easy-to-use, the book presents proven step-by-step methods for understanding food service math concepts and their practical applications in the kitchen. The authors begin with a review of math basics, including fractions, decimals, rounding, and percents, as well as an overview of customary U.S. and metric kitchen measurements. More advanced chapters include directions on conversions, calculating yield percents, determining edible portion costs, recipe costs, and beverage costs, purchasing, and converting recipe yields. Each chapter includes a clear set of outlined objectives, as well as practice problems to help readers develop their skills. Appendices include formulas, measurement equivalency charts, problem answers, and a blank food cost form. In addition, this revised edition will include input from prominent industry leaders, 35 all-new photographs, 150 new practice problems, and a companion website, all designed to...
