Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Course in Qualitative Chemical Analysis The reception of this book by teachers of Qualitative Analysis, calling for a number of reprintings of the first edition, has been a source of gratification to the Authors. In the revision, some changes and additions, as indicated by the use of the book, have been made. The original plan of the book, however, has been maintained. Some valuable suggestions from others have been utilized. The theory of Electrolytic Dissociation and the Law of Mass Action have been outlined. New methods, some proposed elsewhere and some developed by original work in our qualitative laboratories, have been incorporated. All of the new methods given have been thoroughly tried out. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
